

## Online educational resources / 12-months access Live interactive webinars / User progress metrics

Onyx Agency is a programme offering insight and advice on ethics and compliance centred around the practical application of the ABPI Code of Practice. It is designed to meet the needs of those working in agencies allied to the pharmaceutical industry.

### Key features of Onyx Agency

#### Learner access for 12-months

The programme comprises five online courses that each take up to 45 minutes to complete. Course content comprises video, audio, and written resources and all learners are given access for 12 months from the date of enrolment.

The five courses within Onyx Agency are as follows:

1. Good business decisions
2. The ABPI Code of Practice
3. Promotion & promotional channels
4. Non-promotional activities
5. Communicating about medicines

Each course concludes with a summary and knowledge check quiz.

#### Live educational events

Learners are also given access to monthly live webinars (1 hour per session) through the Onyx platform which provide updates on hot topic areas in Code compliance.

#### Full user metrics and completion certificates

Companies signing up multiple users to the Onyx platform can be provided with manager access to view and download progress reports and records of learning completion.

Upon completion of the online programme users can download a completion certificate.
